Subject:	Re: CPW Consultation on Form 2A
Date:	Wednesday, December 19, 2012 10:44:31 AM

Jeff,

Thank you for contacting me, and providing information on the proposed KGH Meagher 14-1H location (T1S, R104W, section 14 at 39.964014, -109.035809).

CPW has the following concerns for Wildlife: The proposed pad location is within mule deer critical winter range, a sensitive wildlife habitat. Based on this concern, CPW recommends the following BMPs to satisfy the mule deer critical winter range issues associated with this location:

1. Where oil and gas activities must occur in mule deer critical winter range conduct these activities outside the time period from December 1 through April 15 (construction and drilling).
2. Restrict post development well site visitations to between the hours of 10:00 am and 3:00 pm and reduce well site visitations between December 1 and April 15 in mule deer critical winter range.
3. Establish company guidelines to minimize wildlife mortality from vehicle collisions on roads.
4. Gate single purpose roads and restrict general public access to reduce traffic disruptions to wildlife.
5. Close and immediately reclaim all roads that are redundant not used regularly or have been abandoned to the maximum extent possible to minimize disturbance and habitat fragmentation.
6. Avoid aggressive non native grasses and shrubs in mule deer and elk habitat restoration.
7. Reclaim mule deer habitats with native shrubs grasses and forbs appropriate to the ecological site disturbed.
8. Restore appropriate sagebrush species or subspecies on disturbed sagebrush sites. Use locally collected seed for reseeding where possible.

CPW would appreciate your concurrence with the proposed BMP's. If agreement is reached, KGH can attach the wildlife BMPs to their forthcoming Form 2A permit, or I can add them via the comments section.

Thank you,

Jacob Davidson

> I just recently left messages on your phones regarding this location. I would like to schedule a consultation for a Form 2A location in Rio Blanco County for a gas well pad. The legal description is S14, T1S, R104W, 6th PM. I have attached the plat maps and a letter containing the wildlife BMPs for a nearby location with the same

operator (KGH) that was reviewed about 2 years ago.

Please let me know if you need anything else in advance before we discuss this location.

Thanks
