Subject: Wheeler/Bargen water well investigation section 33 1N 67W (Complaint # 200432026)
Date: Wednesday, May 13, 2015 10:40:00 AM
Attachments: Engineering Review (2).xlsx

Paul,

The Colorado Oil & Gas Conservation Commission (COGCC) is investigating the occurrence of dissolved thermogenic methane in two domestic water wells located in section 33 1N 67W (754014 – Wheeler 245188 and 754063-Bargen 6879). The COGCC believes the above-mentioned impacts may be the result of nearby oil & gas activities and are attempting to identify the source. Approximately 53 oil and gas wells occur within 1/2 of a mile of the subject water wells.

The COGCC is compiling information from companies conducting oil and gas operations in the vicinity. Attached is a list of the required information in the form of headings for an Excel spreadsheet for O&G wells Kerr McGee operates within 1/2 mile from the subject wells. Please provide your information by the close of business on 07/01/2015.

The COGCC is requesting information for the following Kerr McGee well(s):

05-123-07238	EMIL SCHNEIDER JR. #1
05-123-07888	DAVID HOWARD #C 1
05-123-14894	UPRR 43 PAN AM L #2
