Subject: FW: Spill #400642787

Bob reminded me this afternoon that PDC needs to submit a subsequent eForm 19 with the remediation # to close the spill. Sorry - it was an oversight given the date of the original Form 19 submittal.

Spill #400642787
Remediation #8595

Bob:

The Initial Spill/Release Report for the subject site was submitted on 7/10/2014 and assigned Spill #400642787. Subsequently, a Form 27 – Site Investigation and Remediation Workplan was submitted to the COGCC via e-mail on 8/12/2014 (see Document #1815570). The Form 27 was subsequently approved by you on 8/19/2014 (see Document #1815568) and assigned Remediation Project #8595. However, Spill #400642787 remains open in COGIS.

PDC respectfully requests that **Spill #400642787** be closed and resolved with a reference to Remediation #8595 that is open and ongoing.

Your assistance in this matter would be greatly appreciated. Please call if any questions.
