Hello,
I plan on moving Ensign Rig #350 in the Fred Hoffner #1 API# 05-123-05377 NWNE 14-7N-66W Wednesday morning 6/16 starting operations upon arrival. Work contains plug and abandonment procedures according to the form 6. This will be 24 hr work and we hope to cement sometime Friday 6/18 or Saturday 6/19. If we have any issues I'll be sure to keep you informed. If you have any questions feel free to give me a call.

Thanks,
