Subject: Kerbs 33-15 123-21731 MIT

Good Morning Erica,
I just wanted to reach out and let you know PDC will be completing an MIT on the well mentioned above on Tuesday the 18th at 8am. COGCC Engineering has requested the MIT be completed 9/30 and this well is in crops so we will only have access for a short period of time and we needed to move a bit sooner due to landowner constraints. Please let me know if you need any more info from me, thanks and have a great day!

PDC ENERGY
