The attached file contains the joint Form 27, a Site Investigation Work Plan, an Analytical Data Summary, and a Chronology of corrective actions that have been implemented to date in response to the NOAV that was issued regarding the alleged contamination of the Prather Spring. A separate Form 27 has been prepared and submitted separately in response to the NOAV that was issued to the Williams MV 1-23 well. If you have any questions, please do not hesitate to call me.
