RE: Registration and Replacement of Existing Domestic Well

Dear Sandy:

I have reviewed the Woodhead's applications for the registration and replacement of their domestic well in the NW ¼ of the NW ¼ of Section 12, Township 8 North, Range 44 West of the 6th P.M. in Phillips County, Colorado. Everything appears to be in order. I see no reason why this well would not fall within the rules and regulations of the Frenchman Groundwater Management District.

On behalf of the District, I would recommend that this permit be issued at your earliest convenience.

If you have any questions regarding this letter, please do not hesitate to contact me. Thank you.

Cordially,

Aaron K. Nein  
District Manager

REGISTRATION OF EXISTING WELL

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) This well is recorded and permit approved pursuant to CRS 37-90-105(4)(a). The use of this well is limited to the historical use as recorded with this office and by the terms of CRS 37-90-105, being a well used for the watering of livestock on range and pasture, for domestic purposes inside 1 single family dwelling(s), and irrigating no more than 1 acre of lawn and garden, with a maximum pumping rate of 15 GPM. The total depth of the well is unknown.
- 4) The date of first beneficial use, as claimed by the applicant, is 1901.
