Mr. Neslin:

Noble Energy Inc. (NEI) is planning to drill the above mentioned well to the Codell/Niobrara/J Sand formations.

The surface location of NEI's proposed well has been staked outside of the 318Aa drilling window. The location is being permitted as an exception location. NEI has obtained written permission contained in a waiver from the surface owner.

Under the Revised Rule 318A any new twinning well is to be located within 50' of an existing well and is to be reached by utilizing directional drilling techniques. The surface location of NEI's proposed well has been staked approximately 801' from the nearest oil and gas well and is planned as a vertical well. Noble has obtained permission, contained in a waiver, from the surface owner.

Thank you for your attention to the enclosed. Noble respectfully requests that the COGCC review the enclosed information and approve the requested exception location waivers and Application for Permit to Drill the captioned well.
