Hi Dave,

I agree with all of the minor changes you listed below.

Please let me know if you have any questions or need anything else.

Thank you,

Matt

Matt,

Per our discussion on Wednesday, October 21, 2009 during the BLM onsite at the Jolley Fed (MDP PAD #12), I have updated the Form 2A (#1790607) to include onsite mud disposal using land spreading (6. Construction) and the date of observation of 8-27-09 for plant species (13. Plant Community). I have changed the depth to groundwater from 140 feet bgs to 85 feet bgs based on COGCC's review of the water well database (Permit No. 234309-Jolley, domestic well located 3300 feet [also revised from 3000 feet] east-southeast of the pad location (14. Water resources). I have also revised the number of Wells to 16 and the number of VOC Combustors to 2 (5. Facilities) based on the original form 2A submitted.

If you agree with these minor changes, please send me an email confirming them. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
