Re: Noble Energy, Inc. (20F Pad)

Dear Mr. Warren:

I do not consent to any operator standards or permit-specific wildlife COA's being imposed upon my fee acreage.

I have had my Rule 306 B Consultation in the field.

A Surface use Agreement with a time frame of development provisions is in place for my properties.

My leases are being amended to coincide with a specific time frame of development on my properties.

As mineral and surface owner I reject any conditional of approval (COA's) at this time.

Sincerely,

  
Joan L. Savage
