Mary,

Not exactly. We plan to have the two wells and their gathering lines flow back to the existing Ione #3 Battery where all the facilities associated with this well will be. I tried to state this under #5. Facilities, Other: Please let me know if this needs to be done some other way.

Thanks,

Jevin

Checked w/ Jevin on phone 11/3/09
Operator agreed to delete water tank(s)
separators (2), oil tanks (2), → These
facilities will be at the Ione #3 Battery location

Hi Jevin,

I am reviewing the above-listed Form 2 and have the following question:

1. Section 3 Facilities: I noticed that you plan to have among other things, 2 gas pipelines, 2 oil pipelines, 2 separators, 2 oil tanks at this location. However, the location drawing only shows that there is an existing well but no other facilities. Is this correct? It is a bit unusual to have just one existing well without any other facilities such as a pipeline. Please verify the facilities and resubmit the location drawing if needed. Note that rule 303.d(3)C requires that existing pipeline be included on the location drawing.

Thanks you for your prompt attention to this minor issue. Take care, Mary
