Hi Dave,

Bill Barrett Corporation accepts the COAs listed below for the Robinson Federal 44C-26-692 location.

Thank you,

Matt

Matt,

Based on the "sensitive area" designation for this proposed pad location, the following Conditions of Approval (COAs) will apply to this permit:

COA 1 - Location is in a sensitive area; therefore, either a lined drilling pit or closed loop system is required.

COA 4 - Location is in a sensitive area because of close proximity (less than 1/8 of a mile) to a domestic water well, therefore, operator must ensure 150 percent secondary containment for any volume of fluids contained at well site during drilling and completion operations.

COA 5 - Operator must implement best management practices to contain any unintentional release of fluids.

COGCC requires your written approval of these COAs prior to passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
