WILDLIFE BEST MANAGEMENT PROGRAM

Petro-Canada Resources (USA) Inc. (PCR), Best Management Plan for the Everitt 1160-21-32 will ensure there will be wildlife friendly fencing around all open pits during drilling and that there will be no open pits on the location 90 days after drilling rig is released. In addition, routine maintenance operations will be restricted as much as possible during the Sharp-tailed grouse breeding season from March 1st to June 1st to the hours of 9 a.m. to 4 p.m.
