SURFACE USE AGREEMENT

THIS SURFACE USE AGREEMENT ("Agreement") is made and entered into this 5th day of July 2006, by and between MERIT ENERGY COMPANY, a Delaware corporation with an address of 13727 Noel Road, Suite 500, Dallas, TX 75240 ("Operator") and Viola Mae Frank, a single woman 13411 County Road 38 1/2, Platteville, CO 80651 ("Surface Owner").

WHEREAS, Operator is the owner of certain oil and gas leasehold rights in, on and under the (the "Property")

TOWNSHIP 4 NORTH, RANGE 66 WEST, 6TH P.M.

Section 32: NW/4 being more particularly described at Reception number 2674816 on February 22, 1999 in the Weld County Clerk and Recorder's Office.

and

WHEREAS, Surface Owner is the owner of the surface rights in and to the Property, and

WHEREAS, the Property is subject to the provisions of Rule 318 A of the rules and regulations of the Colorado Oil and Gas Conservation Commission ("COGCC") effective March 1, 2006, authorizing the drilling, completion and operation of "infill and boundary" wells in addition to the other wells authorized to be drilled from the COGCC designated drilling windows being 400-foot squares located in the center of the SW/4NW/4 of Section 32, T4N-R66W, 6th P.M. of above described, and

WHEREAS, Operator intends to drill a well with a "bottom hole" location under the drilling window located in the SW/4NW/4 of Section 32 above described from a COGCC permitted surface location approximately 2000 feet from the North Line and 863 feet from the West Line of Section 32, and

WHEREAS, Operator's leasehold rights include, among other things, the right of ingress and egress for the purposes of exploration, development, drilling, re-drilling, testing, completion, recompletion, re-entry, deepening, fracturing, refracturing, stimulation, reworking, production and maintenance operations associated with oil and gas wells and the associated flowlines and production facility to be located on the Property, and

WHEREAS, Operator has identified one location ("Wellsite Area") on the Property at which it desires to drill oil and gas wells (collectively the "Wells"). The Wells and Wellsite Areas are further described on Exhibit "A" attached hereto and made a part hereof. As used in this Agreement, the term "Wellsite Areas" shall encompass the

area within a 200-foot radius of the actual wellbore of each Well. The Well to be drilled pursuant to this Agreement is the following:

Frank 6I

WHEREAS, Operator and Surface Owner desire to enter into an agreement regarding the Wells and the Wellsite Areas covering such subjects as well setbacks, the drilling of additional wells in the Wellsite Areas, flowline locations, production facility location and access road locations, all for the purpose of coordinating the development of the mineral rights and surface rights of the Property.

NOW, THEREFORE, in consideration of the mutual promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Surface Owner acknowledges, subject to the terms and conditions of this Agreement, that Operator, as the owner of oil and gas leasehold rights covering the Property, has the right to drill the Wells and to have uninterrupted access to the Wells, Wellsite Areas, flowlines and production facilities for the purposes of exploration, drilling, re-drilling, testing, development, completion, recompletion, re-entry, deepening, fracturing, refracturing, stimulation, reworking, production and maintenance operations.
2. Operator acknowledges, subject to the terms and conditions of this Agreement and the oil and gas lease or leases that cover the Property, that Surface Owner, as the surface owner of the Property, has the right to develop the surface of the Property.
3. Surface Owner and Operator agree that the Wellsite Areas, Wells and Easements (as defined herein), flowlines, production facilities and access routes for the Wells will be located approximately as shown on Exhibit A. The production facilities for the Wells will be located approximately as depicted on Exhibit A. The stock tanks and the separators for the Wells will be constructed in a triangle configuration at distances required by the rules and regulations of the COGCC. Operator agrees to minimize the area used for the production facilities for the Wells in a manner consistent with good oil field practices. The parties acknowledge that the Wellsite Areas, Easements, flowlines, production facilities and access routes as depicted on Exhibit A are not surveyed locations and that actual locations may change based on actual surveyed distances. If the Property is developed in the future by Surface Owner, Surface Owner shall provide Operator with a thirty (30) foot wide exclusive (except through or across any public right-of-way) easements for the flowlines, said easements being fifteen (15) feet on each side of each flowline (the "Easements"). Surface Owner agrees that it will not construct any buildings, structures or improvements within seventy-five (75) feet on either side of each flowline. At the time Surface Owner files an application for development with any governing body having jurisdiction of the Property, the Easements will be surveyed by Surface Owner at Surface Owner's expense and provided to Operator in a recordable instrument reasonably acceptable to Surface

Owner and Operator, or noted on any plat submitted to such governing body. Operator agrees to bury all flowlines to a depth of forty-eight (48) inches below the surface of the ground.

4. Surface Owner and Operator acknowledge that Operator has agreed to pay Surface Owner a sum of money per Well that has been agreed to as consideration from Operator to Surface Owner for the drilling of each of the Wells. Such payment shall be made prior to the commencement of drilling operations for each of the Wells. Should Operator fail to make the payment of the agreed upon consideration as set forth herein this Agreement will be of no force or effect. Surface Owner and Operator agree to negotiate in good faith for payments that may be made in connection with the drilling of additional wells on the Property within the Wellsite Areas pursuant to Rule 318 A of the COGCC rules, as amended from time to time, but the parties agree that if they are not able to reach agreement on such payments, that failure will not affect Operator or Surface Owner with respect to their respective rights in the Property. In consideration of such payments, Operator and Surface Owner agree as follows:

(a) By entering into this Agreement, Operator is not restricting, modifying, altering, or amending in any way its right of reasonable surface user of the Property. Specifically, Operator retains and maintains its right of access to the surface and sub-surface of the Property using routes as are provided for in this Agreement and such other routes as may be necessary to perform drilling and production enhancement operations on the Wells and other wells drilled on the Property (including but not limited to recompletions, deepening, re-drilling, refracturing, stimulation, workovers, pump installation, etc.), remediation and repair, maintenance and all other type of activities related to the Wells and other wells drilled on the Property including the eventual plugging and abandonment of the same. In the event of an emergency, Operator will have immediate unrestricted access to the Property.

(b) If, by reason of Operator's operations on the Property, there is damage in excess of the damage caused by the normal, reasonable use of the of the Surface of the Property by Operator for its oil and gas operations, Operator shall be liable to Surface Owner and its successors and assigns, as the case may be, for such damage, provided, however, Operator shall not be liable for any such damage caused by the negligence or willful misconduct of Surface Owner and his successors and assigns. In addition, Operator shall indemnify and hold harmless Surface Owner and its successors and assigns from all claims asserted against them by any third party, whether for bodily injury, property damage or otherwise, arising directly by reason of Operator's operations, if such claims are the result negligence on the part of Operator in the exploration, drilling, re-drilling, testing, development, completion, recompletion, reworking, deepening, re-entry, fracturing, refracturing, stimulation, production and maintenance operations on the Property, provided, however, Operator shall not be liable for such third party claims arising directly or indirectly from the negligence or willful misconduct of Surface Owner.

(c) Surface Owner shall have no liability for any release into the environment of oil, gas, produced water, or other substances utilized by Operator pursuant to its conduct of oil and gas operations on the Property, except as any such release that is caused by Surface Owner, or its tenants, licensees, invitees or agents. Operator shall hold Surface Owner harmless from, and indemnify Surface Owner against, any liability arising from any federal or state environmental law or regulation applicable to any release of hazardous materials or substances caused by Operator's conduct of oil and gas operations, or any other activities of Operator on the Property. Unless Surface Owner, or its tenants, licensees, invitees or agents, engage in or assumes responsibility for the conduct of oil and gas operations on the Property, or otherwise causes any actual or threatened significant adverse environmental impact, Operator assumes the obligation as the "responsible party" under Section 34-60-124(7), Colorado Revised Statutes, to perform any mitigation ordered by the COGCC, or to perform any mitigation or remediation required by any other federal or state agency charged with enforcement of environmental laws or environmental regulations if such mitigation or remediation is related to or made necessary by Operator's oil and gas operations on the Property.

(d) At the conclusion of its operation on each of the Wells drilled on the Property (as determined at the sole discretion of Operator), Operator shall plug and abandon such wells and restore the applicable wellsite area and related flowline and access route location, in accordance with the then applicable laws, rules, regulations and standards of the COGCC, or the laws, rules, regulations and standards of any successor agency.

(e) As to all operations conducted on the Property pursuant to this Agreement and the lease or leases and except as provided in Paragraphs 4(b) and 4(d) hereof, Surface Owner, for itself, and its successors and assigns, does hereby release, relinquish and discharge Operator, its successors and assigns from all claims, demands, damages and causes of action, past, present and future that Surface Owner may have by reason of the occupancy of the Property by Surface Owner and all other damage or injury to the Property, the Wellsite Areas, Easements and access routes caused by Operator's oil and gas operations.

5. (a) Surface Owner agrees that it shall not plat any surface property lines or construct any buildings, structures or improvements within the Wellsite Areas or within a distance of 200-feet (or such greater distance as may be required by any governmental agency with jurisdiction of Property) the of any of the wellhead of any Well drilled on the Property. Surface Owner further understands and agrees that Operator will need full and unobstructed use of the Wellsite Areas for drilling, completion, recompletion, re-entry, refracturing, stimulation, reworking, deepening, re-drilling and other workover operations necessary for the on-going production operations.

(b) Surface Owner shall identify on proposed subdivision plats, special use applications, application for a preliminary plat or final plat or plan or any other designation for a surface development application used by a local jurisdiction, the location of the Wells, Wellsite Areas, Easements, access roads and production facilities. Surface Owner shall record a plat to reflect the foregoing in the office of the Clerk and Recorder of Weld County, Colorado after it is approved by the local jurisdiction.

(c) Surface Owner shall provide written notice to its successors and assigns notifying them of Operator's ongoing operation and use of the Wells, Wellsite Areas, Easements, access roads and production facilities.

(d) Surface Owner shall provide to Operator written notice at least thirty-(30)-days before each hearing on any application that affects the Property.

(e) The parties agree to grant and hereby grant a waiver to each other of any state and local setback regulations and other requirements that are inconsistent with this Agreement.

6. With the prior written consent of Operator, which consent will not be unreasonably withheld, Surface Owner may install and maintain ground cover, landscaping and watering systems ("Landscaping") within the Wellsite Areas at its own expense and risk, acknowledging that Operator's normal operation may from time to time disturb or destroy said installed Landscaping. Surface Owner hereby agrees to install and maintain said Landscaping in such a way as to not violate COGCC regulations or impede Operator's access and/or operations. Surface Owner hereby accepts all responsibility for cost of installation, repair and/or replacement of said Landscaping within the Wellsite Areas, and Operator shall not be responsible for damage to said Landscaping resulting from its future access or operations. Prior to commencing installation of the Landscaping, Surface Owner shall consult with and obtain written approval from Operator to ensure that there are no adverse impacts upon Operator's ability to perform future operations, which consent shall not be unreasonably withheld. Operator's consent to the installation of such Landscaping shall not constitute nor be construed as a waiver of Operator's rights pursuant to this Paragraph 6.

7. This Agreement constitutes written consent of Surface Owner for Operator to conduct such oil and gas operations on the Property, as it deems necessary or convenient to the development of its leasehold subject to the terms and conditions contained herein. This Agreement also constitutes Surface Owner's written acknowledgment that Operator has provided an appropriate Notice of Drilling in accordance with Rules 305.b (1) and 305.c of the COGCC and has properly engaged in Drilling Consultation with Surface Owner in accordance with COGCC Rule 306.a (1).

8. Operator shall keep Surface Owner's interest in the Property free and clear of all liens, claims and encumbrances, including but not limited to mechanic's liens, arising from Operator's oil and gas operations and other activities on the Property.

9. All notices, requests, demands and other communications required or permitted hereunder shall be in writing and shall be deemed to have been fully given, made and received only when personally delivered, received via facsimile that has been confirmed electronically, delivered by Federal Express or other nationally recognized courier service, or three (3) days after having been deposited in the United States mail, postage prepaid, return receipt requested. All notices requests, demands and other communications required or permitted hereunder shall be addressed as set forth below:
