13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Please be advised that EnCana Oil & Gas (USA) Inc. is in the process of permitting 16 directional wells on our N. Parachute WF H26 596 pad. Both the surface and bottom hole locations for these wells are on EnCana-owned surface estate and mineral estate. In order to reach our bottom hole objectives, which are on our mineral estate, we must pass through federal minerals. Details for the wells are delineated on the attached exhibit and the directional well plans are attached for your review. As agreed on in an earlier meeting, Encana will run production casing from TD to surface, and cement will be placed from TD to 200 feet above the Ohio Creek. All completion work will be in the Williams Fork interval, on a legal location to EnCana minerals only. A final directional survey will be submitted to your office after completion of drilling operations for each well. This will include all surveys taken to 500 feet past the exit point of the federal minerals. We will also provide the final bottom hole rectangular coordinates. Please provide a copy of your Conditions of Approval to Bill Yokley with the Colorado Oil and Gas Conservation Commission. He may be reached by phone at 303.894.2100 ext 5154. The Commission's address is 1120 Lincoln Street, Suite 801 Denver, CO 80203.
