Re: H2S Concerns

Tracey,

I am concerned about the potential for H2S on the KOSKIE APD-Re-File since H2S was present on the Oliver well which is located about 1.2 miles to the NW. Because of that, I want BBC to submit an H2S Safety Plan as per rule 607 (b). Via this email, I am asking the COGCC permitting supervisor (Dennis Ahlstrand) to withhold approval of the APD until I have reviewed and approved the plan. Please send the plan directly to me. PDF would be the preferred media. I will attached it to the eform permit application.

Thank you,

Mark Weems, P.E.
