Georgina,

I have been reviewing the Harvard 42-30 **Form 2A** (#400019541). COGCC requests the following clarifications regarding the data Pioneer has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment.

1. **Soils (Section 12):** The soil type listed on the Form 2A is Gulnare-Allens Park Complex 5 to 35 percent slopes. Due to the fractured nature of the Gulnare, the following condition of approval (COA) will apply:  
**COA 6** - Location is in a sensitive area because of potential for adverse impacts to groundwater; therefore all pits must be lined.

COGCC would appreciate your concurrence with attaching this COA to the Form 2A permit prior to passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
