### 15. Comments:

This amendment makes the following changes: add 2 wells to pad but there will be no additional earth disturbance, update facilities list to accommodate additional wells. Reference Area Photos are attached. #1 Consultation: Since this location is in a "Sensitive Wildlife Habitat Area" Antero contacted CDOW prior to original submittal of APD to consult with them concerning BMP's. We have implemented BMP's that they suggested in our "Proposed BMP's" see attached. #14-Water Resources: We have attached a map that we received from CDOW labeled "CDOW High Value Riparian Habitat", which confirms that our well pad is no located in a riparian area.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
