Chris, Dave, Mary,

I submitted comments on Silverlight for the Berry Latham I02-697 Form 2A permit. The COAs are appropriate to the site and are the same as discussed with Chris Freeman in pre consultation.

CDOW believes that COAs 1 through 7 are COGCC Rule and may not need to be repeated as a COA, all other COAs are appropriate to the site and should be attached to the permit.

CDOW did not receive a notice of this permit. Can COGCC review this situation and see what happened with the notice?

Please let me know if you have questions or would like additional information.
