Section 7: SESW: 180' FSL & 1457' FWL (Surface Location)

Mr. Neslin:

Noble Energy Inc. (NEI) is planning to drill the above mentioned well to the Codell/Niobrara formations

The surface location of NEI's proposed well has been staked outside of the 318Aa drilling window. Also, this well is planned as a vertical well and does not meet the directional drilling requirement of Rule 318A.e. The location is being permitted as an exception location. NEI has obtained written permission in a Surface Use Agreement/waiver from the surface owner.

Under the Revised Rule 318A any new twinning well is to be located within 50' of an existing well. The surface location of NEI's proposed well has been staked approximately 709' from the nearest oil and gas well. Noble has obtained permission, contained in a Surface Use Agreement/Waiver, from the surface owner.

Thank you for your attention to the enclosed. Noble respectfully requests that the COGCC review the enclosed information and approve the requested exception location waivers and Application for Permit to Drill the captioned well.

Respectfully,

A handwritten signature in blue ink that reads 'Kate Miller'.
