Map of Oil/Water Wells Located Within ¼ Mile

There are 26 gas production wells located within ¼ mile of the bottom hole or surface location for proposed injection well (GM 943-1D) as shown on the attached map.

There are no water wells (domestic, irrigation, etc.) located within ¼ mile of the proposed injection well. The attached database search from the Colorado Division of Water Resources indicates no wells in the area of interest.

Township 7 South, Range 96 West, 6<sup>th</sup> PM  
Section 1: SW/4NE/4  
Garfield County, CO

Dear Owner,

Williams Production RMT Company is filing an application with the Colorado Oil and Gas Conservation Commission (the COGCC) to drill the GM 923-1D for the purpose of salt water disposal. Williams Production RMT Company is filing the application as part of its efforts to reduce water hauling for its oil and gas operations in the area. In accordance with the rules and regulations of the COGCC, this letter is notice of Williams's application to drill the GM 923-1D. This well will be a dedicated water injection well which will target the Upper Williams Fork formation (a.k.a. Ohio Creek member) of the upper part of the Mesaverde Group as the objective disposal interval.

Any person who would be directly and adversely affected or aggrieved by the authorization of the underground disposal into the proposed injection zone may file within fifteen (15) days of notification, a written request for a public hearing before the COGCC, provided such request meets protest requirements specified in subparagraph m of rule 325. Additional information on the operation of the proposed disposal well may also be obtained at the COGCC office.

If you have any questions concerning this application, please contact the undersigned at 970-683-2288.

Sincerely,

**Williams Production RMT Company**
