Figure 1 displays three vertical panels of data, likely from a well log or seismic profile. The left panel shows a CCL (Cementation Log) plot with a scale from 0 to 300. The middle panel shows a VDL (Formation Bond) plot with a scale from 0 to 1200. The right panel shows a VDL (Formation Bond) plot with a scale from 0 to 1200. The plots show various waveforms and data points. The CCL plot has a scale of 0 to 300. The VDL plots have a scale of 0 to 1200. The CCL plot is labeled 'CCL' and '0.5'. The VDL plots are labeled 'VDL (Formation Bond)' and '1200'.
