15. Comments:

Water well receipt 43660A. Well will be tied into a common tank battery called the "Wells Ranch State 28 NE/4 Tank Battery". A separate 2A has been submitted. No depth to water data is available for the nearest water well. The depth to groundwater of 15 feet was taken from the nearest water well with data (permit #13197) approximately 6,388 feet from proposed location, and there appears to be approximately 78' of elevation gain from the water well to the proposed location. Future land use reference area will be on undisturbed ground immediately adjacent to the north of the location as indicated in the north location photograph. Exception location waivers and request letter filed with Form 2.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
