15. Comments:

On - Site Date was 8/12/2009, With BLM and CDOW, the SGU CDP and SGU Frac pads were discussed. The Frac pad was discussed at the on-site but the exact location was not determined until 9/29/09. The Frac pad is discussed in the Liberty Pipeline system, with Topo D1 attached.

This facility is planned with one Special Purpose Pit (used to hold frac water) the water will run through pipeline to the SGU B36 496 and the SGU F25 496 pads for remote frac/completion operations. This will greatly reduce water truck traffic in the area.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
