Subject: Wexpro, B W Musser 35, NESE Sec 5 T11N R97W, Moffat County, Form 2A (#2095316) Review

Dee,

I have been reviewing the B W Musser 35 **Form 2A** (#2095316). COGCC requests the following clarifications regarding the data Wexpro has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment.

1. **Facilities (Section 5):** The construction layout drawings (Figure 1) indicate that there will be a separate flare pit located east of the reserve pit. This flare pit needs to be marked as a special purpose pit on the Form 2A and a Form 15 (Earthen Pit Report/Permit) must be submitted. I can make the change if you send an email with this request. **Attached is the signed copy of the Form 15**
2. **Construction (Section 6):** Form 2A does not indicate if H₂S is anticipated. I assume that it is not. I can make the indication (No) on the Form 2A if you send an email with this request. **No H₂S is anticipated**

These issues need to be addressed prior to COGCC passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
