RE: Surface Owner Notification and Waiver  
PAD NAME: BCU 12B  
Well: NVega Federal 12B-144  
NWNE-12-T9S-R93W  
Mesa County, Colorado

Mr. and Mrs. Hall,

Reference is made to our verbal understanding of Delta plans to commence operations for the drilling of the caption well on your property located in the NWNE of Sec. 12, T9S-R93W.

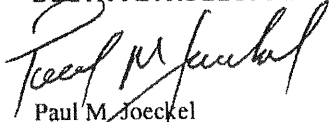

While we are in the process of negotiating a written Surface Use Agreement, Delta would like to file the APD's (Application for permit to drill) with the Colorado Oil & Gas Conservation Commission (COGCC).

The state of Colorado requires Delta to provide a thirty (30) day notice under Rule 305 and to consult with the surface owner under Rule 306 of the Rules and Regulations of the COGCC. Because we have verbal understanding and you are aware of Delta drilling operations in the area we are asking you to waive the notice requirement and consultation requirement

Please call me at (303)820-4046 with any questions you have concerning this proposal. If not please return one executed copy of this letter in the envelope provided

Sincerely,

DELTA PETROLEUM CORPORATION

Paul M. Joeckel  
Landman

We, Doug Hall and Jo Ann M. Hall hereby specially waive the 30 day notice requirement contained in Rule 305 and we have satisfied the consultation requirement contained in Rule 306 of the Rules and Regulations of the COGCC.

RE: SURFACE USE PLAN –NVega Fed 12B 6-144

Dear Mr. and Mrs. Hall:

Delta Petroleum is proposing construction within the next 6 months on the NVega Fed 12B 6-144, of which you are the surface owner.

This pad includes one federal bottom-hole location as well as one bottom-hole location in production. Because the federal BHL requires a federal permit, Delta Petroleum is required by Federal regulations to provide you with a copy of the "Surface Use Plan" for the federal well to be drilled on this pad (attached with this letter).

If you have any questions regarding the above-referenced "Surface Use Plan", please do not hesitate to contact me at (303) 575-0323.

Sincerely,

Delta Petroleum Corporation

Cheryl Johnson  
Regulatory Technician
