Dear Sir/Madam,

Samson Resources Company has not yet drilled the above mentioned wells located on your property and for which you have signed surface use agreements.

Samson Resources has received approval from the regulatory agencies and intends to drill the wells in the second quarter of 2010. However the State of Colorado permit to drill will expire next month and therefore Samson is renewing the permit and is required to notify the land owner of the approximate time the wells will be drilled.

Before Samson moves a rig onto your property they will notify you again.

If you have any questions, please don't hesitate to call me at 720-239-4365.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Georganne Mitchell for', written over a horizontal line.

Georganne Mitchell
Surface Landman
