

State of Colorado
Oil and Gas Conservation Commission

1120 Lincoln Street, Suite 801, Denver, Colorado 80203 (303)894-2100 Fax:(303)894-2109

FOR OGCC USE ONLY

Spill report taken by:

FACILITY ID:

SPILL/RELEASE REPORT

This form is to be submitted by the party responsible for the oil and gas spill or release. Any spill or release which may impact waters of the State must be reported as soon as practicable; any spill over 20 bbls must be reported within 24 hours and all spills over five bbls must be reported within ten days. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

OPERATOR INFORMATION

Name of Operator: _____ OGCC Operator No: _____	Phone Numbers No: _____ Fax: _____ E-Mail: _____
Address: _____	
City: _____ State: _____ Zip: _____	
Contact Person: _____	

DESCRIPTION OF SPILL OR RELEASE

Date of Incident: _____ Facility Name & No.: _____	County: _____
Type of Facility (well, tank battery, flow line, pit): _____	QtrQtr: _____ Section: _____
Well Name and Number: _____	Township: _____ Range: _____
API Number: _____	Meridian: _____

Specify volume spilled and recovered (in bbls) for the following materials:

Oil spilled: _____ Oil recov'd: _____ Water spilled: _____ Water recov'd: _____ Other spilled: _____ Other recov'd: _____

Ground Water impacted? Yes No Surface Water impacted? Yes No

Contained within berm? Yes No Area and vertical extent of spill: _____x_____

Current land use: _____ Weather conditions: _____

Soil/geology description: _____

IF LESS THAN A MILE, report distance **IN FEET** to nearest.... Surface water: _____ wetlands: _____ buildings: _____

Livestock: _____ water wells: _____ Depth to shallowest ground water: _____

Cause of spill (e.g., equipment failure, human error, etc.): _____ Detailed description of the spill/release incident: _____

CORRECTIVE ACTION

Describe immediate response (how stopped, contained and recovered):

Describe any emergency pits constructed:

How was the extent of contamination determined:

Further remediation activities proposed (attach separate sheet if needed):

Describe measures taken to prevent problem from reoccurring:

OTHER NOTIFICATIONS

List the parties and agencies notified (County, BLM, EPA, DOT, Local Emergency Planning Coordinator or other).

Date	Agency	Contact	Phone	Response

Spill/Release Tracking No: _____

F25 WELL PAD (Story Gulch) – FORM 19 – NARRATIVE RESPONSE

Date of Incident – 03/31/2010

Detailed description of the spill/release incident:

While pumping cement for the well surface casing, the seal on the conductor failed. Trash pumps were used to recover cement from the cellar ring until the cement job was completed. When the pumps failed at the same time it caused the cellar ring to fill and overflow 6 BBL of cement onto the location.

Describe immediate response (how stopped, contained and recovered):

Trash pumps were repaired and continued to recover cement from the cellar ring. Water was used to flush cement back into the ring and to main a viscosity which would allow the trash pumps to continue to work.

Describe any emergency pits constructed:

No emergency pits were constructed.

How was the extent of contamination determined?:

The discharged volume was estimated visually.

Further remediation activities proposed (attach separate sheet if needed):

Most of the cement was recovered immediately following the incident. Any remnant cement will be removed from the location during interim reclamation.

Describe measures taken to prevent problem from reoccurring:

A review of the procedures used for cement recovery during surface casing will be undertaken to determine if additional pumps should be kept on location to provide adequate backup in the event of pump failure.
