December 21, 2009

Finney Land,

LPEA has an overhead powerline near a gas well pad owned by McElvain Oil and Gas. This overhead line is located in the southeast corner of Township 33N Range 8W Section 20 with access off Herrera Hill. This overhead powerline is currently de-energized, meaning it is physically disconnected from the energized powerline. It will remain in this condition indefinitely.

If you have any question on this matter please call me at 382-7189.

Thank You,

Mark Head
