Dear Mrs. Loeffler,

The K.P. COGCC rule 318A(a)(1) provides that in the Greater Wattenberg Area (GWA), operators may utilize "GWA windows" being a square with sides 400 feet in length, the center of which is the center of any governmental quarter section ("400' window") to drill, twin, deepen, or recomplete a well. COGCC Rule 318A(a)(3) provides that "Absent a showing of good cause, which shall include the existence of a surface use or other agreement with the surface owner authorizing a surface well location outside of a GWA window, all surface wellsites shall be located within a GWA window."

In addition, COGCC Rule 318A (c)(2) provides that when the operator is requesting a surface well location greater than fifty (50) feet from a well, the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively.

K.P. KAUFFMAN COMPANY, INC.
