At this time, DOE does not request any additional information but would encourage COGCC to place general language in the permit such that the company would accommodate DOE sampling requests in the future. DOE agrees with the COGCC assessment that the surface location is in the NWNW Section 35 7S 95W and is approximately 1.45 miles from the Rulison well. The bottom-hole-locations range approximately from 1.26 to 1.69 miles from the Rulison well DOE agrees with COGCC that all wells fall under the Tier 2 sampling and monitoring of the COGCC Rulison Sample and Analysis Plan and all wells are located in Sectors 9 of the Rulison SAP. DOE will

CORRESPONDENCE p. 204

continue to review the proposed locations and subsurface orientations of the propose drilling for documentation when sampling occurs. Thank you for the opportunity to comment on these permit applications. Please e-mail or call at 240-252-8506 if you require further information.

Sincerely

Jack Craig

Jack and Rick

Noble has submitted permit applications for 16 wells on a new pad in the NWNW Section 35 7S 95W in the Project Rulison 3 mile area.

The surface location in the NWNW Section 35 7S 95W is approximately 1.45 miles from the project well.

The bottom hole locations are approximately 1.26 to 1.69 miles from the project well.

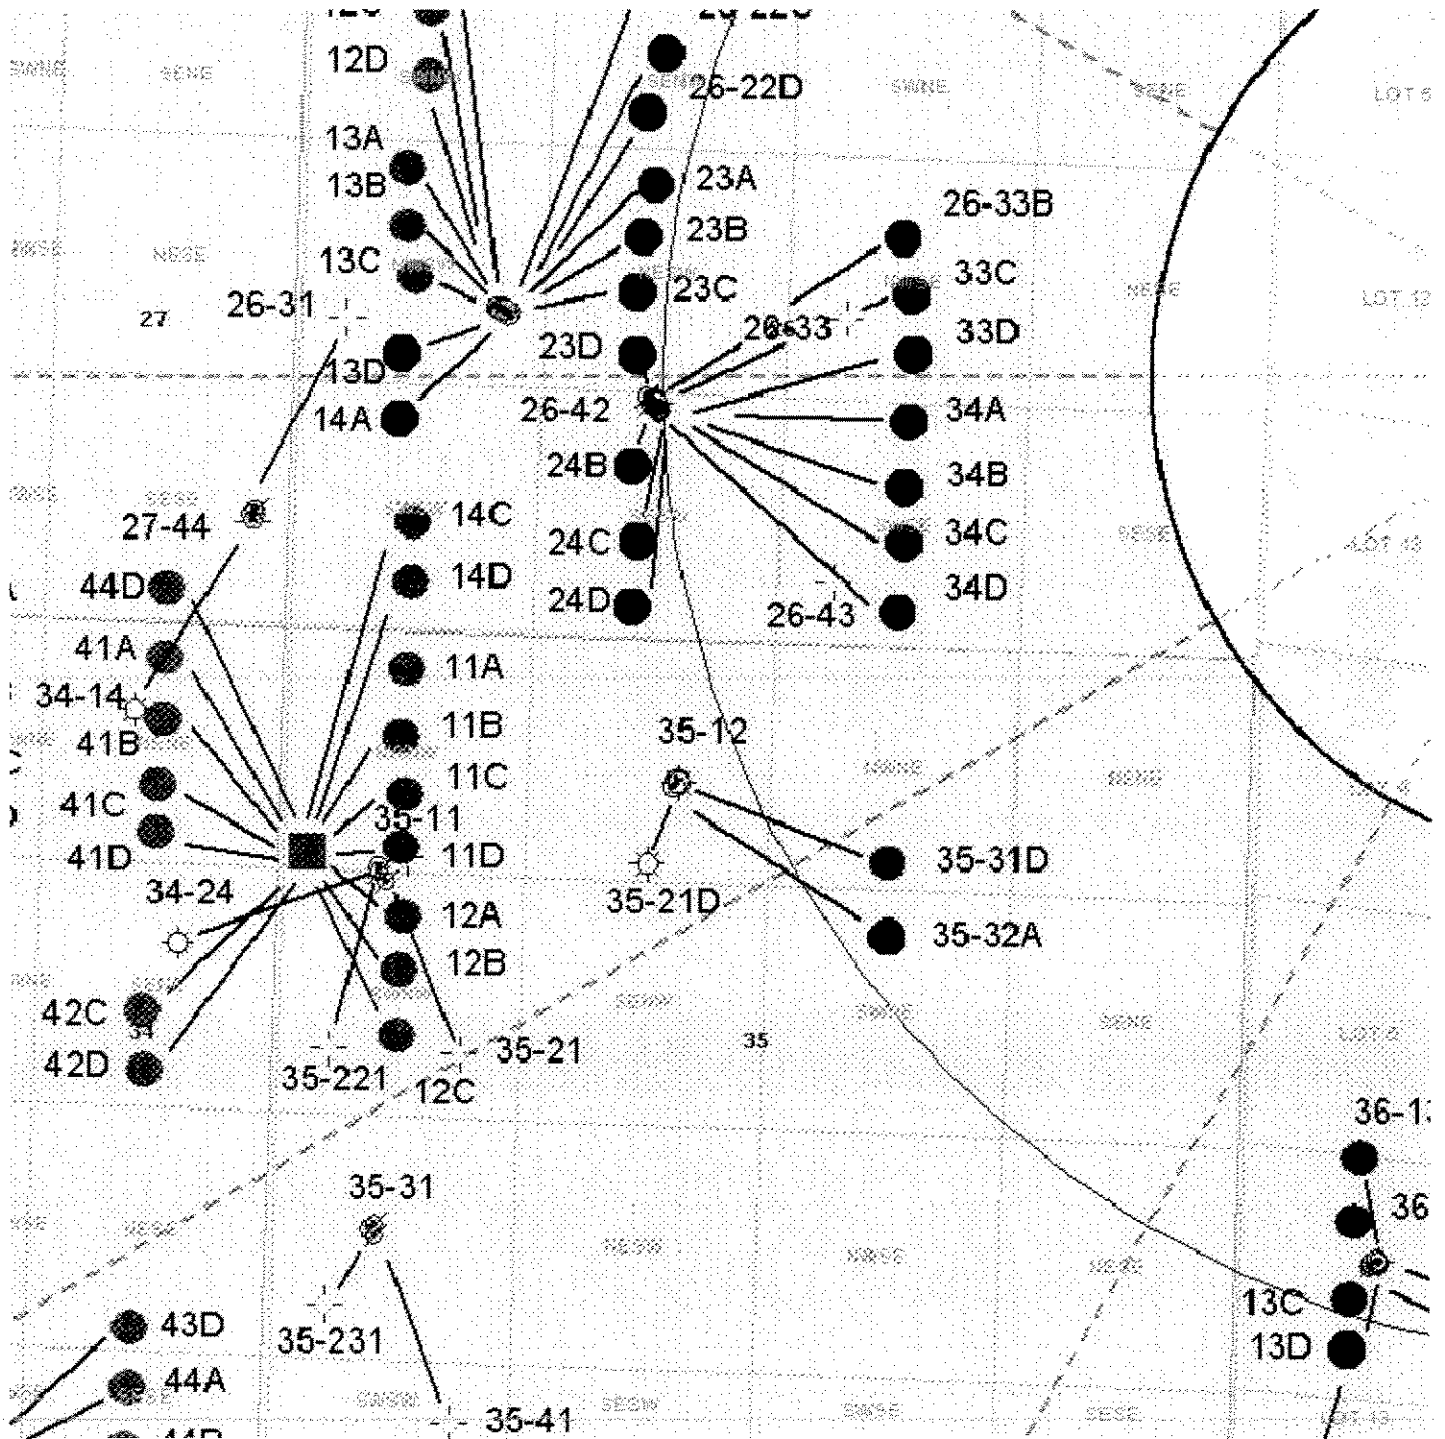

The attached well information spreadsheet and map below show the bottom hole locations.

All locations are in Tier 2, Sector 9 of the Project Rulison SAP.

The permit application comments indicate Noble sent notification to you on Feb. 12, 2010.

Please let me know if you need any additional information.
