RE: Cindy 23-28  
Form 27 and Closure Request Cover Letter  
API 05-123-10361  
Sec.28, T1N, R64W  
Weld County, Colorado

Dear Mr. Chesson:

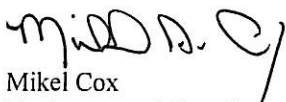

On November 2, 2009, a historical release was discovered at the abovementioned location during line replacement operations.

As described in the previously submitted Form 19 neither surface water nor groundwater was impacted. Remediation activities commenced on February 22, 2010. Hydrocarbon field kit analysis for soils assisted in the determination of excavated volumes. Approximately 1935 cubic yards of impacted soil were hauled to the Noble Energy land farm in Weld County and 540 cubic yards to Buffalo Ridge landfill.

The attached documentation includes a completed Form 27, laboratory analytical results from confirmation soil samples, and a site diagram showing sample location and results. Based on the site remedial activities and the attached laboratory analytical results, NEI is requesting that the COGCC consider this location remediated, requiring no further action.

Please contact the NEI environmental department at (970) 785-5025 if you have any questions or require additional information.

Sincerely,

  
Mikel Cox  
Environmental Coordinator

  
Marty Faraguna  
Environmental Specialist
