5/13/10

David Neslin – Director COGCC  
Colorado Oil and Gas Conservation Commission  
1120 Lincoln Suite 801  
Denver, CO 80203

Dear Mr. Neslin,

Williams Production RMT Company requests expedited approval of 2 drilling permits that are expiring today 5/13/10. SG 433-32 (05-045-18440-00) and the SG 334-32 (05-045-18442-00) located in the NWSE 32-7S-96W, Garfield County, Colorado. This is a 3 well pad and there is currently a rig on the location that has drilled one of 3 wells. Because of drilling rig contract negotiations the drilling of the pad was delayed. Had it not been for these negotiations all three wells would have been spud prior to permit expiration.

Due to exigent circumstances, (drilling rig contract negotiations) a rig move and or paying standby rig charges will result in significant economic cost to Williams.

Williams is requesting the Director to issue these re-file permits under Rule 303 1. (2). Operator (Williams) shall not be required to meet obligations to surface owners, Local Governmental Designees, the CDPHE and the CDOW.

A handwritten signature in blue ink that reads "Greg Davis". The signature is written in a cursive, flowing style.

Greg Davis  
Williams Production RMT Company
