To Whom It May Concern:

The Colorado Oil and Gas Conservation Commission adopted guidelines and procedures regarding oil and gas activities affecting the surface. These rules stipulate that the affected surface owner must be given notice in writing by an operator at least thirty (30) days prior to drilling an oil and gas well.

Mineral Resources, Inc. is the owner of the surface from which the above captioned wells will be drilled and as the surface owner, Mineral Resources Inc. hereby waives the thirty (30) day notice referenced above and approves any and all operations to commence upon receipt of approved APDs.

Sincerely,
