To Whom It May Concern:

Mineral Resources, Inc. respectfully requests that the Director grant an exception to Rule 318A. Under the Revised Rule 318A of the Colorado Oil and Gas Conservation Commission's Rules and Regulations, it requires any new twinning well to be located within 50' of an existing well.

The wells on the following page are not within the 50' ruling. Mineral Resources, Inc. is the surface owner of the lands from which the wells will be located and hereby waives the 50' twinning rule.

Sincerely,

MINERAL RESOURCES, INC.
