**Re: Waiver of COGCC – Rule 603(a)(2), Statewide Setback  
CAMENISCH #9-32-40R**  
NE/4SE/4 Section 32, Township 4 North, Range 67 West  
Weld County, Colorado.

Dear Director,

K.P. Kauffman Company, Inc. (KPK) hereby requests that the Director grant a waiver to the statewide setback on the above referenced well. KPK's *Camenisch #9-32-40R* location is currently staked 72.75' from the property line of Phillip Camenisch's northern property tract in E/2 section 32-T4N-R67W. Mr. Camenisch also owns the southern property tract in E/2 section 32-T4N-R67W and has signed a waiver to the statewide setback. As the well is a 318Ae well twinned from an existing well (KPK's Camenisch #32-9, API # 05-123-23579) and KPK is unable to meet the minimum statewide setback requirement at the current location without significantly changing the planned drilling location, KPK hereby requests the Director to approve the proposed well location.

If you have any questions or issues regarding this permit, please contact Jason Lilley, CPL at (303) 825-4822.

Sincerely,

K.P. Kauffman Company, Inc.
