**RE: Waiver of Rule 305.c 20-Day Notice Requirement
Cutthroat 32-29 Well - Permit in Process
Township 19 South, Range 69 West: Section 29: E/2
Fremont County, Colorado**

Dear Mr. Neslin:

I am writing as the surface owner for the above referenced well location. I have a Surface Use Agreement in place with Pine Ridge Oil & Gas, LLC the operator of the proposed well. Please accept this letter as my notice to the COGCC to waive the required 20-day Notice Requirement referenced in Rule 305.c regarding the above referenced oil well location. The procedure for the granting of this waiver is set forth in Rules 303.1.2 and 502.b.

I understand that Pine Ridge presently has a rig drilling in the Florence Area that will leave if Pine Ridge is unable to receive a State of Colorado drilling permit for this well in an expedited timeframe.

That would result in Pine Ridge incurring additional expense and delays. It would also result in Pine Ridge drilling one well on an already constructed well pad for the Patti 32-29 well and then having to rig down and return at a later date to drill the Cutthroat 32-29 well. This would result in additional disturbance and traffic in my area than would happen if the two wells could be drilled back to back. I think this situation has occurred because drilling has gone faster than expected and because Pine Ridge has elected to move one of its surface locations which resulted in the need for a new permit.

I would appreciate it the COGCC would cooperate on this matter. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Bob Boecker".
