

12-POINT SURFACE USE PLAN OF OPERATIONS

OXY USA Inc.

**Currey Federal A 15-4 Well
NWSE, Section 16, Township 9S, Range 94W, 6th PM (Surface Location)
Lease No. COC 64794 (Mineral Location)
Mesa County, CO**

Overview

The South Collbran Federal 15-4 well will be drilled from the existing Currey 16-10 pad which has been constructed on private lands owned by H. Wayne Currey (Landowner). Access to the location will be across private lands owned by the same Landowner. A Surface Use, Access and Right-Of-Way Agreement between Landowner Laramie Energy LLC is attached to this permit. Plains Exploration & Production Company (PXP) entered into a Purchase and Sale Agreement with Laramie Energy LLC dated April 18th, 2007 and effective January 1st, 2007 which transferred ownership of the attached Surface Use Agreement from Laramie Energy LLC to PXP. Oxy USA Inc. (Oxy) entered into a Purchase and Sale Agreement with PXP dated September 24, 2008 and effective December 1, 2008 which transferred ownership of the attached Surface Use Agreement from PXP to Oxy.

1. Existing Roads

To access the Currey 16-10 pad, from the town of Collbran, beginning at the intersection of Main Street and CR 330 E, travel east on CR 330 E. At MP 4.9 turn left on gravel access. At MP 5.3 pass the west side of Woods-Spangler 15-13 pad. At MP 6.3 go over the bridge over Buzzard Creek. At MP 6.9 turn right on access to pad.

2. Planned access road

The existing access road for the Currey 16-10 pad is entirely on private surface and was constructed to be compatible with the anticipated load traffic.

Any navigable waters which have been crossed during construction of the access road, gathering lines, or the pad were permitted as necessary with a section 404 permit through the Army Corp of Engineers.

Refer to E. Plateau /Brush Creek Field POD for road standards and maintenance.

3. Location of Existing Wells

As of 6/1/2010, there were 18 gas wells identified by the COGCC in some stage of activity within a one-mile radius of the proposed well. Refer to the "Well Vicinity Map" figure supplied in the Currey Federal A 15-4 well plat package.

4. Location of Tank Batteries, Production Facilities and Production Gathering and Service Lines

The Currey Federal A 15-4 well plat package has a Production Schematic showing the equipment layout for the proposed wells on the Currey 16-10 pad. Each well will have its own individual treatment, metering and tankage setup. The final site facility layout will be submitted to the BLM upon completion.

There is an existing gas gathering line which exits the pad location.

5. Location and Type of Water Supply

Refer to E. Plateau /Brush Creek Field POD for water supply source

6. Source of Construction Materials

Refer to E. Plateau /Brush Creek Field POD

7. Method of Handling Waste Disposal

Refer to E. Plateau /Brush Creek Field POD

8. Ancillary Facilities

Refer to E. Plateau /Brush Creek Field POD

9. Wellsite Layout

The Currey Federal A 15-4 plat package shows the surface location and bottom hole location for the proposed well, refer to Well Location Map figure. The proposed well pad will be partially located within the edge a scrub oak vegetative community, refer to the pad layout figure in the plat package. The drill site layout will consist two lined pits (reserve and cuttings pits), the rig and appurtenant equipment, and support trailers for the drilling crew, refer to the typical rig layout figure in the plat package. The plat package also contains the proposed access road map, topographic map, construction layout drawings, and the proposed multi-well orientation.

10. Plans for Restoration of the Surface

After the drilling and completion operations, the pad will be reclaimed in accordance to the terms in the Surface Use, Access, & ROW Agreement between Laramie Energy LLC and the private landowner, which has been transferred to Oxy through the Purchase and Sales Agreements noted in Overview above.

11. Surface Ownership:

The existing pad and access road are located on surface property owned by Dr. H. Wayne Currey. A Surface Use, Access and Right-Of-Way Agreement between Laramie Energy LLC and the landowner is attached.

12. Other Information

Oxy will follow and adhere to the Noxious and Invasive Weed Management Plan for Oil and Gas Operators published from the Grand Junction Field Office of the BLM and the Grand Valley Ranger District for the U.S. Forest service dated March, 2007. A Class III Cultural Resource Inventory of the proposed drill sites, access roads and other facilities on federal lands has been or will be conducted and a report filed with the appropriate BLM office. Plant and wildlife surveys of the proposed drill sites, access roads and other facilities on Federal lands have been or will be conducted and a report filed with the appropriate BLM office. Operator will notify the BLM at least three (3) working days prior to construction of the well pad and/or related facilities and within two (2) working days after completion of the well pad. If archaeological, historical or vertebrate fossil materials are discovered during the course of any construction activities, Oxy will immediately suspend all activities and contact the appropriate BLM office. Operations in the area of discovery will not resume until written authorization to proceed has been issued by the BLM. Oxy will be fully responsible for the actions of their subcontractors. A copy of the approved APD and Conditions of Approval will be on location during drilling and completion operations.

Lessee's or Operator's Representative and Certification

Currey Federal A 15-4 Well
Fed Lease No.: COC 64794

A) Representative:

Sean Norris
Regulatory Coordinator
OXY USA Inc.
760 Horizon Drive, Suite 101
Grand Junction, CO 81506
Office: (970) 263-3628
Fax: (970) 263-3694 Fax
Cell: (970) 773-3890 Cell

B) Field Representative:

Warner Meece
Production Coordinator
OXY USA Inc.
Cell: (970) 985-3004

All lease and/or unit operations will be conducted in such a manner that full compliance is made with all applicable laws, regulations and Onshore Oil and Gas Orders. The operator is fully responsible for the actions of its subcontractors. A copy of these conditions will be furnished to the field representative to ensure compliance.

C) Representative Certification:

I hereby certify that I, or someone under my direct supervision, have inspected the drill site and access route proposed herein; that I am familiar with the conditions which currently exist; that I have full knowledge of State and Federal laws applicable to this operation; that the statements made in this APD package are, to the best of my knowledge, true and correct; and that the work associated with the operations proposed herein will be performed in conformity with this APD package and the terms and conditions under which it is approved. I also certify that I, or the company I represent, am responsible for the operations conducted under this application. These statements are subject to the provisions of 18 U.S.C. 1001 for the filing of false statements.

Executed this 14 day of June, 2010.
