15. Comments:

#1 Consultation: Since this location is in a "Sensitive Wildlife Habitat Area" Antero contacted CDOW prior to submittal of this APD and discussed best management practices (see attached Proposed BMP List which addresses wildlife issues). #4- The proposed Porter B1 well location was used as the reference point for well distance measurements. #6: The disturbed area acre amounts include the access road. #14-Water Resources: The distance to nearest surface water provided is to an irrigation ditch as shown on Hydrology Map. The depth to ground water was determined by using static water level data of nearest active water well (Permit#262551/Receipt#9502151C). Distance given for nearest water well is to nearest permitted well. Our reference are is undisturbed ground immediately adjacent and to the South of the proposed well pad, as shown in the "looking South" location photo.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
