CONDITIONS OF APPROVAL:

See Attached

Permit/Project # Land Use Planning District: Florida Mesa

Project Name: Barnes A #4 District Land Use:

La Plata County Land Use Code Conditions of Approval

The following conditions must be met:

1. The applicant shall submit a listing of the equipment located at the Barnes A #4 Well Pad site to La Plata County Planning Department at eighteen (18) months after the spud date. The equipment listing shall include the total number, size, type and model of equipment. The equipment listed will become this facility's approved and permitted equipment. LPLUC § 90-19 (*Permanent equipment*)

Any equipment changes will require the applicant to notify the county of these changes.

NOTE: Changes to permanent equipment include, but are not limited to, changes of existing equipment or additions of any piece of equipment that result in greater land use impacts. A modification of permanent equipment shall require the applicant to submit a narrative, site plan, visual mitigation plan, and appropriate fees per the specifications outline in this chapter. LPLUC § 90-44(b).

2. Approval granted for the Facility shall expire or be considered revoked if construction is not commenced within one year from the date of this approval. LPLUC § 90-44(a)
3. Pad dimensions for the Facility shall be the minimum size necessary to provide a safe work area and minimize surface disturbance. LPLUC § 90-123(c)(7)
4. All minor facilities shall be colored in uniform or camouflaging, non-contrasting, non-reflective color tones, similar to BLM Standard Environmental and Supplemental Colors coding system. Colors matched to the land, not sky, slightly darker than the adjacent landscape. LPLUC § 90-123(c)(5)(a),(b)
5. When the Facility becomes operational, all construction-related debris shall be removed from the site. This site shall be maintained free of debris and excess material at all times during operation. LPLUC § 90-124(d)(1)
6. Weed control and re-vegetation at the Facility shall be performed per LPLUC § 90-124(e)(1),(2) and § 90-124(g)(1),(2),(3)
7. Pad dimensions for a minor facility shall be the minimum size necessary to provide a safe work area and minimize surface disturbance. LPLUC § 90-123(c)(7)

Project Name: Barnes A #4
Applicant: BP America

Project #: 2009-0088
Date: 06/15/10

8. At all times Best Management Practices will be used to prevent stormwater discharges from impacting surface water quality. LPLUC § 90-123(c)(8)
9. Onsite containment and disposal of water associated with minor and major facilities shall be in accordance with any applicable federal, state or county requirements. LPLUC § 90-123(e)(2)
10. Applicant shall be required to adhere to all other applicable regulations for the construction and operation of the Facility, as outlined in Chapter 90 of the LPLUC.

Recommendations

- 1.) The applicant evaluate re-vegetation at the site periodically during the first growing season and at one year after construction to ensure a uniform weed-free vegetative cover has been established.

**RE: Minor Oil and Gas Facility Permit Complete
Project #: 2009-0088, Barnes A #4**

Dear Mrs. Folk:

The application for the above referenced Oil and Gas Facility ("Facility") is:

☒ Complete.
☐ Incomplete - The attached specified deficiencies exist.

Upon review of the above referenced application, the following determination has been made:

- ☒ Granted administrative approval in accordance with Section 90-73 of the Oil and Gas Regulations of the La Plata County Land Use Code (LPLUC), subject to the conditions of approval herein.
- ☐ When you have remedied the identified defects or deficiencies and submitted the appropriate documentation on the items specified, this office will again consider your application.
- ☐ Denied Administrative approval, in accordance with the regulations, you may correct the defects or deficiencies specified and resubmit the application or you may appeal to the Board of County Commissioners as per Section 90-73 of the LPLUC. It is the determination of the Planning Department of La Plata County, Colorado that the proposed Oil and Gas facility, referenced herein as submitted, cannot be operated in compliance with all applicable standards or requirements of these regulations for the reasons attached.
