Due to the hydrology map appearing to show that our pad crosses a dry drainage, we've attached an aerial view of our location to demonstrate that the pad has been contoured to accommodate it on the ground. The aerial view shows the actual drainages in red and what is depicted on the topo hydrology map in blue. The distances given on #9, Cultural, are from the EF02C-32 G29 595 well. Please reference the attached Facilities List for a more detailed account of what will be on location.
