WELLS, SEC. 26, T2S, R2E, UTE PM, MESA CO, CO.**

Dear Mr. and Mrs. Azcarraga,

The Colorado Oil & Gas Commission (COGCC) requires that surface and mineral Owners of proposed drilling operations be notified at least 30 days prior to the start of such drilling operations. Fram Operating, LLC ("Fram") anticipates that drilling operations will commence within the next 2-12 months on the above referenced wells. I have included a copy of the COGCC "Oil and Gas Well Notification, Consultation and Reclamation Rules" for your review. These wells are located in the SW4 SW4 of Section 26 as referenced above. If you have a Tenant on or working the property, please be sure to advise them of our plans. I have included a stamped, addressed envelope for your convenience.

By signing and returning the enclosed form, you indicate your understanding and acceptance of this notice. If you desire, the form also allows you to designate a representative for consultation regarding the methods of drilling and surface use. If you have any questions, please contact me at the number shown in our letterhead. You may also reach me by e-mail at bob@framamericas.com.

Sincerely,

Robert N. Koelbl, for
