SESE Sec. 34-T7N-R63W, Weld County, Colorado

Dear Mr. Neslin,

Conquest Oil Company (Conquest) respectfully requests that the Director grant an exception to Rule 318.A(c) for the above wells. These wells are spotted as above in order to maximize the potential for future on-site injection facility operations and to minimize surface disturbance. Per COGCC Rule 318.A(c), a GWA well surface location shall not be less than 50' from an existing well. These surface locations are greater than 50' from an existing well for the above specified reasons. Please see the attached waiver from surface owner Rodney Wilson consenting to the above surface location and waiving his rights under rule 318.A(c).

This well will be drilled under the conditions of a surface use agreement.

Sincerely,

Andy Peterson
