Williams requests permission to occupy Federally owned land for surface location of the subject well. The well will be located on the newly constructed SR 33-9 well pad and will drill into fee minerals in the SW/4 NE/4 of Section 9. There will be a total of Seventeen wells drilled from this pad when fully developed. Only 5our wells are being permitted at this time of which four are drilling into Federal minerals.

This pad is included in the Spruce Creek 2008 EA.

Please see attached plats, directional drilling plan and geological prognosis for additional information.
