The wells will be tied into the tank battery facility located approximately 204' SE which currently services the Heyde 1-26 (also located on site), 31-26, 32-26, 41-26, and 42-26. Reference area is located adjacent to and on undisturbed ground as shown in the north photo of the proposed location. The surface owner waived their initial consultation.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
