CASS GARBER PRODUCED WATER PIT #1J  
COGCC Remediation # 4501; Doc # 1944506  
Garfield County, Colorado

Dear Mr. Danforth,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the remediation documentation submitted in July 2009 for the referenced sites. A variance for SAR and EC is not required given that the upper three feet of the pit were backfilled with clean top soil material. As a reminder, please analyze soil and groundwater samples for all analytes indicated in Table 910-1 of the COGCC Rules. A reduced list of analytes may be granted by COGCC based on process knowledge and site specific conditions. In that case, a sundry notice Form 04 should be submitted to request COGCC approval for the reduced list.

Based on review of this information, COGCC requires no further action at this time.

If you require any additional information, please call me at (970) 625-2497.

Sincerely,

*Carlos Luján for*  
Chris Canfield, P.G.  
Environmental Protection Specialist
