15. Comments:

Water well permit #290-- was used to determine depth to groundwater. The Maxey 24SD, Maxey 24PD, 24XD and the Maxey 24D (an existing well) will all be drilled from the same pad. The wells will be tied into a tank battery facility which currently services the Maxey 24D and 43-24 wells located approximately 800' to the SSE. The additional equipment needed for the additional wells will fall within the originally disturbed area.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
