## Memorandum

To: Margaret Ash  
From: Soraya Baroumand  
CC: Jennifer Head, Williams Production RMT  
Date: October 12, 2010  
Re: Request to delete 15 field inspections for the Johnson RWF facility (Location number: 335509, API numbers: 045-16184, and 045-16194 through 045-162052)

---

Jennifer Head, from Williams Production RMT, has requested the removal of 15 violation-status field inspections on our COGIS database for the Johnson RWF 66S94W/30SWSE well pad, location ID 335509, and that only one violation remain for the location, (citing the violation of noxious weeds).

The location has 15 producing wells, so the inspection was entered for each well by its API number. No other violations, aside from noxious weeds, were observed during the site inspection.

The document numbers are the following: 200260245, 200263736, 200263737, 200263738, 200263739, 200263740, 200263742, 200263743, 200263744, 200263745, 200263746, 20026374, 200263748, 200263749, and 200263750.

One field inspection entry, document #200272564, has been entered in the system for the location ID (335509), as a replacement to the above document numbers.
