 Weld County, Colorado

Ladies and Gentlemen:

Encana Oil & Gas (USA) Inc. ("Encana") has staked six (6) wells from the existing East Rinn 23-15 well site located in the NE/4SW/4 of Section 15, Township 2 North, Range 68 West (see attached survey plats). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A, known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. Rule 318A.c states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The six (6) East Rinn wells were staked at a distance ranging from 98' to 148' of the existing East Rinn 23-15 well. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the captioned wells by waiver of the COGCC Rule 318A.c.(1).

If this meets with your approval, please sign and date both originals of this letter, keeping one for your files and returning one to the undersigned.
