Dear Mr Neslin

Pursuant to COGCC Rule 318A a and 318A c , Encana Oil & Gas (USA) Inc (“Encana”) hereby requests administrative approval for an exception location as requested in COGCC Rule 318A a (3) which sets forth that an operator showing good cause and having surface owner approval can locate a well outside a GWA Window and as requested in COGCC Rule 318A c (2) which sets forth that when the operator is requesting a surface well location greater than fifty (50) feet from a well, the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively

EnCana is a mineral interest owner and wishes to drill the subject well outside the GWA Drilling Window and more than 50 feet from an existing well and has obtained a signed Waiver, as required and enclosed for your file, from the Surface Owner approving the location, as proposed, just outside of a GWA Window and located more than 50’ from an existing well

If you have any questions or need additional information, please contact me at (720) 876-5339

Sincerely,
